Learning Outcomes:

The first 5G demo shows how it can be used in education. The technology can be used to conduct virtual classes, where a teacher might not be physically present in the class.

Expert Narration:

Indian Prime Minister Narendra Modi took to stage on the occasion to speak about the benefits of 5G in India and how the service will help the country's technological revolution. Modi also spoke about key pillars that will support the Digital India movement, including the need for affordable technology and a widespread network.
