Brief details of the event:

QISCET – EDC & IIC conducted a session on Intellectual Property Rights (IPRs) and IP management for Student startup on 26.04.2023. The speaker of the session was Dr.R.Dhivagar. He highlighted the importance of the topic for the students looking to protect their innovative idea and how they can utilize this session to understand the process of patent filing and their importance to protect their idea in the global market.

Response of the audience: The students gained an in-depth understanding of the topic and how to file a patent. The learning was quite evident from the level of questions asked by the students to the expert. He was able to make the audience to understand about the importance of protecting their innovation through Intellectual Property Rights (IPR).

Learning Outcomes:

Ultimately, the learning outcomes of an IPR event are aimed at equipping participants with the knowledge, skills, and resources to navigate the complex landscape of intellectual property and make informed decisions regarding the protection, management, and exploitation of their creative and innovative works.

Expert Narration:

Dr.R.Dhivagar, started his session with explaining about Intellectual Property (IP) rights are legal protections granted to individuals or entities for their creative and innovative works. These rights are designed to encourage innovation and creativity by granting exclusive rights to creators, inventors, and innovators for a certain period of time. Also he gave some insights and examples about Copyright, Trademarks, Patents, Trademarks and Industrial Designs.
