Brief details of the event:

QISCET – EDC & IIC conducted a Session with innovation and Start-up Ecosystem Enablers from the state level - Drone Technology on 11.08.2023. The speaker of the session was Mr.A.Gopi raja. He highlighted the importance of the innovation and startup for the students looking to begin their prototype development and how they can utilize this session to understand the process of prototype and their importance to uplift their career in the global market.

Response of the audience: The students gained an in-depth understanding of the topic and how to start prototype and its importance. The learning was quite evident from the level of questions asked by the students to the expert. He was able to arouse interest of the students in the area and the session became a wonderful dialogue-based session where the students were asking regular questions and expert was generous enough to answer almost all their queries.

Faculty Coordinator Name & Email ID: Dr.S.Suresh Kumar,

sureshkumar.s@qiscet.edu.in

Learning Outcomes:

Students gained in-depth knowledge to start their prototype development from scratch to final and how their leveraging new technology and how to design the product and their importance as a part of the entrepreneurship. The topic dealt with core areas of the prototype development and product development.

Expert Narration:

Mr.A.Gopi raja, started his session with his own life experience and also how he started his startup while studying KL University and with example of the recent drone product for the farmers that they had very recently developed in their company. The expert shared the entire journey of how they kick started their prototype from the ideation stage to a product building. The expert shared all the stages involved in development journey through practical example which ensured that the students could relate to the concept and understand the process of prototype development. Also he motivated the students to start working on their ideas.
